

## **Care of Sina Pearson Textiles Terry Towel 284**

No matter how soundly constructed an upholstery may be, it will not wear well if it is not cared for properly.

Most stains on Sunbrella® fabrics can be cleaned up with mild soap and water solution.

- Spot wash by sponging briskly with a solution of natural soap in lukewarm water.
- Rinse thoroughly with clean water to remove soap and air dry.
- For stubborn stains, use fabric spot remover. Follow the directions on the container.
- For removable cushion covers, machine wash in cold water with a mild soap, then air dry.
- Sunbrella acrylic does not promote mildew growth. However, mildew may grow on dirt and other foreign substances that are not removed from the fabric. To clean mildew stains, prepare a mild solution of one cup bleach and two capfuls of natural soap per gallon of water. Spray on entire area and allow to soak in. If necessary, scrub vigorously with a sponge or clean rag. Sponge thoroughly with clean water and air dry.

Sunbrella® is a registered trademark of Glen Raven, Inc.
